Flying over Prespa lake

Easiest, fastest and safest experience

Tandem flights are the easiest, fastest and safest way to experience paragliding for the first time. If you can run 2-3 meters, you can fly with us! After a ten minute briefing our professional tandem pilot will take you into the air for a flight that lasts from 20 - 40 minutes depending on flying conditions.

The passenger (you) and the flight instructor each have their own comfortable harness. You are then connected together and finally connected to the glider. Two minutes later, you're airborne! Once in the air your flight instructor will explain to you what he is doing and how paragliders fly. If conditions permit, you may be offered hands on control of the glider.
